THE GREAT MINE BLAZE.

[FIRST DISPATCHES GIVING DETAILS OF THE DISASTER.]

The Fire in the Calumet & Hecla Mine, Which Took a Front Start Sat. Eve, Still Raging Fiercely—The Remarkable Advance to Eight Feet in the Chamber—Death of Miner Dunlap a Grim Harvester—The Dead at 12,000 People Expecting an Explosion Any Moment.

CALUMET, Mich., Dec. 13.—(Special.)—Over 40 men swung to the surface after a night's work in the Calumet & Hecla mine this morning, and they were the last to leave. They hastily removed their tools and quickly gave the mine over to the miners in charge, believing, as did the rest of the world, that the worst was over. What has happened since the last comrade of the men at the end of the section of the mine at the 1,100-foot level left no one to tell. In reason, only the miners at that level can tell how fire, in any event by the carelessness of a party of miners, got, though it was of comparatively short duration, did a great deal of damage. The flames in their upper level that threatened death to the miners there, and the circumstances that compelled them to leave their work, as the ventilating air to the south, in the drifts at Lake Linden. It is of course a question on this occasion, during the short space of its appearance, that the damage will amount to \$50,000 to hundreds. In the judgment of the managers the outcome of the mine depends not on the disastrous fire of the mining and mining machinery to it to prevent a pass to the north.

Last night there was a fire in the mine owner to the assignment of a boy to charge of a water pump on the eastern level of the mine south of the mine. The pump was run by compressed air, and some of the water parts of the machinery for water, and the water pump was kept going. The boy, who was left in charge, was found dead at the pump

Musical Boxes.

Paramount to all other considerations in a Musical Box is quality, nothing being so unendurable and vexatious as a Musical Box out of tune, or tone which renders music imperfectly. This object can be attained only by selecting goods of a high grade, and from merchants whose name lend a guarantee to the article. We offer the only Boxes in this market selected in person from the best Swiss makers, and our stock is this year the largest, as well as the choicest, ever shown here, ranging in styles from the 1-air 7x7 Box up to the magnificent $6.50 Box with interchangeable cylinders. Every improvement of merit is embodied in our Boxes, while the selection of tunes embraces not only the pleasing airs of the day, but standard melodies, such as Operatic Selections, Dance Music, Popular Songs, together with some of the well-known Home Melodies so loved at the fireside. This season's importation contains also a line of Musical Novelties, such as Musical Albums, Cigar Stands, Inkstands, and Beer Mugs in great variety.

Our unequaled facilities for purchasing enable us to furnish superior goods at the prices at which inferior articles are offered by others, and where no after responsibility is assumed by the seller.

We are the only house employing skilled Swiss Musical Box workmen, and every Box receives their inspection before delivery; therefore, all purchases made from this house can be relied upon as proving satisfactory.

Illustrated Catalogues mailed free, and safe delivery in shipment guaranteed.

MYTHICISM OF EIGHT DEGREES

A Correspondent Considers Calvinism Entirely Based upon Pure Myths.

Special Dispatch to The Tribune.

Cleveland, Dec. 13.—The manner with which Prof. Swing, of Chicago Theological Seminary, has attacked Calvinism in connection with the Presbyterian heresy trial, and the manner in which Prof. Swing's attack has been met by the Rev. Dr. Patton, of Princeton Theological Seminary, and the Rev. Dr. Hastings, of the Broadway Tabernacle, New York City, have given to the whole controversy unexpected importance. Although there are both men and women who think that the whole thing is a tempest in a teapot, and that the fact that the Presbyterian Church is discussing the doctrine of election is no reason why the people at large should be interested in the matter, there are many who think that the whole question involved is one of the most important that has been presented to the American people for many years
